Project: 4800 MW Combined Cycle Power Plant, Beni Suef, Egypt

Subject: Project Completion and Appreciation

To whomsoever It May Concern

Siemens awarded a contract to M/s SW Engineering Private Limited at the 4800 MW Combined Cycle Power Plant at Beni Suef in Egypt. The scope of the works included skilled manpower for Mechanical and Piping erection works.

In addition to the Siemens contract, M/s SW Engineering Private Limited was also contracted for pipe works for the project by the erection company.

We wish to express our appreciation to M/s SW Engineering Private Limited for completing the works entrusted within the given time-frame and with good quality.

M/s SW Engineering Private Limited professional conduct and timely actions went a long way in achieving project success. We want to place on record our acknowledgement of the high quality and professionalism of the M/s SW Engineering's manpower. M/s SW Engineering's adaptability, pro-activeness, and collaborative outlook supported an efficient mechanical and pipework erection.

We at Siemens have no hesitation in recommending M/s SW Engineering Private Limited for future projects and wish them the best in their future endeavors.

Best Regards,

Michael Hermsdorf
